

CSCI 597 Seminar in Computer Science Research.

Quiz 1: Introduction and Ethical Issues.

1. Instead of coming to any of the CS597 lectures, I can just make arrangements with the professor or the T.A. so that I will only take the quizzes whenever I want.
TRUE or ABSOLUTELY-COMpletely-FALSE?
ABSOLUTELY-COMpletely-FALSE
2. A good paper starts by demonstrating how all related previous work simply is not good.
TRUE or FALSE?
FALSE
3. Which one is better? (circle it)
(a) "Attention modulates visual processing along at least two dimensions: A spatial dimension which enhances the representation of stimuli within the focus of attention, and a feature dimension which enhances attended visual features throughout the visual field."
or
(b) "Attention modulates visual processing along at least two dimensions: A spatial dimension which enhances the representation of stimuli within the focus of attention (Motter, 1994; Treue and Maunsell, 1996; Brefczynski and DeYoe, 1999; Lee et al., 1999), and a so-called 'feature dimension' (Treue and Martinez-Trujillo, 1999) which enhances attended visual features throughout the visual field (McAdams and Maunsell, 2000; Saenz et al., 2002, 2003)."
(b)
4. When studying for my class where it was stated that homeworks should be done individually, it is still okay to work on the homework in a study group, as long as each member of the group writes her/his own answer to the homework questions. TRUE or FALSE?
FALSE
5. The fewer references my manuscript has, the more it will look like this is a completely novel study. TRUE or FALSE?
FALSE
